

Inaugural batch of Grand Challenge Scholars from NUS

GCSP Ceremony 2017: (From left) Chua Wee Liang, Zhang Huichen, Ruzanna Binte Alwi, Chong Yue Linn, Felicia Tay, Edward Elson Kosasih, Edwin Ferbianto

The first batch of Grand Challenge Scholars from NUS has completed the program and will be graduating this year!

The Grand Challenge Scholars Program (GCSP) aims to prepare students to be the generation that solves the grand challenges facing society in this century. It is a program endorsed by the National Academy of Engineering (NAE) in the United States and is open to NUS students through the iDCP. GCSP scholars at NUS are required to work on at least one of the 14 challenges identified by the NAE and demonstrate excellence in interdisciplinary work, entrepreneurship, global awareness, and service learning.

The GCSP scholars for 2017 are:

Name	Department	Grand Challenge
EDWARD ELSON KOSASIH	Electrical & Computer Engineering	Engineer the Tools of Scientific Discovery
EDWIN FERBIANTO	Mechanical Engineering	Engineer the Tools of Scientific Discovery
ZHANG HUICHEN	Mechanical Engineering	Engineer the Tools of Scientific Discovery
CHUA WEE LIANG	Engineering Science	Engineer the Tools of Scientific Discovery
TAY HUI MING FELICIA	Mechanical Engineering	Restore and Improve Urban Infrastructure
CHONG YUE LINN	Mechanical Engineering	Restore and Improve Urban Infrastructure
RUZANNA BINTE ALWI	Civil & Environmental Engineering	Restore and Improve Urban Infrastructure

More information regarding the GCSP can be directed to Dr Edwin Koh (edwin.koh@nus.edu.sg).
